Pilgrims of Hope in the Holy Land

Jubilee 2025

Edited by Gonzalo Monzón Camps

Descrizione

The present volume aims to promote the restoration of a climate of hope and trust in a period of history marked by uncertainty and bewilderment. It seeks not only to become a source of inspiration for each person but also a resource for study groups, parishes, and pilgrims during the Jubilee period. Furthermore, the text can serve as a beacon of light for many people who find themselves in situations of frustration, desolation, or discouragement, as it focuses on the spiritual depth and practical relevance of the theological virtue of hope.

Autore

Gonzalo Monzón Camps, a Legionaries of Christ priest, holds degrees in Philosophy, Theology, and Education. He teaches Sindonology and organizes Holy Land pilgrimages with Notre Dame and Magdala Centers.
